

2010 Fastest 5K and 10K times at Metroplex Road Races

(**Note:** The Fastest times list will now run from Jan. 1 to the end of December rather than the previous April to March dates. The new fastest times will be posted after more than three 5Ks or 10Ks have been conducted.)

This will be attempted to be updated each week, using times from Fort Worth-Dallas area races that are available on websites or sent to me via e-mail from race directors. If you've run a faster time in a D-FW race and it's not listed, please contact the race director and have him or her e-mail me the results at admin@clinesrunningcorner.com. If a person wins an Overall or Masters title, that time might or might not appear in the person's age-group ranking. It depends if the person's age is listed in the results. Some race results have no ages submitted in Overall, Masters and younger divisions, so some runners might not have their times recorded in their specific age division. Gun times will be used in the Overall and Masters divisions and those gun times will be used in the age division listings. Chip times, if available, will be used for all others in age-group divisions. Times will be rounded up in age-group divisions. For example, if a time is listed as 34:14.4, then the time will become 34:15. There is a Top 15 fastest times; fastest winning times and for Overall and Masters; and age divisions will include 15 names. There will be no repeats in age divisions; a person's fastest time will be recorded. If a runner moves up to a different age division during the year, it's possible he or she could be listed in both divisions. The fastest list will run from Jan. 1, 2010 to Dec. 31, 2010. If there are names misspelled or times wrong, please [e-mail](#) for corrections.

Note: There are some races results that don't have ages listed, so some runners who are in overall, masters, younger and older age divisions might not be posted in their respective age division although they might have faster times than those who are listed. If that is the case, [please e-mail](#) and submit your age, race and time. If attending a road race where the timing is by a school or other organization, please request that they e-mail the results to this website. Every effort is made here to obtain results from all D-FW road races.

Note: Because ages weren't listed in the Chosen Heritage or the Son Run results, and because 10-year age divisions were used in most age divisions, any qualifying times are not included. Ages also were not listed in the Boopas 10K, 5K runs and because of different age divisions used, any age division times that might qualify are not included. If a race doesn't list ages and have different age divisions that what's listed here, probably the only times that will be listed will be overall and masters. Note: Because there is a corrected version of the Bunny Boogie, several fastest times have been changed to reflect the corrections.

Updated: April 29, 2010. Note: [Please e-mail](#) me if a course might not be accurate, mainly being too short. The times at a short course shouldn't be included among the Fastest Times.
