

It was watermelon time at Trinity Park

This was the lineup of melons for the Fort Worth Runners Club's Watermelon Run relay on Saturday, Aug. 14, at Trinity Park. Teams of two had to carry the watermelons a half-mile each. The relay followed the regular 5K, which turned out to be about 2.9 miles rather than 3.1 for most of the runners because of a wrong turn. The confusion at the turn was caused by a training group leader directing his runners/walkers, causing most of the FWRC 5K runners to follow their route.
