

2008-09 Fastest at Metroplex Road Races

This will be attempted to be updated each week, using times from Fort Worth-Dallas area races that are available on websites or sent to me via e-mail from race directors. If you've run a faster time in a D-FW race and it's not listed, please contact the race director and have him or her e-mail me the results at admin@clinesrunningcorner.com. If a person wins an Overall or Masters title, that time might or might not appear in the person's age-group ranking. It depends if the person's age is listed in the results. Some race results have no ages submitted in Overall, Masters and younger divisions, so some runners might not have their times recorded in their specific age division. Gun times will be used in the Overall and Masters divisions. Chip times, if available, will be used in age-group divisions except for those whose times are used in the Overall or Masters lists. Times will be rounded up in age-group divisions. For example, if a time is listed as 34:14.4, then the time will become 34:15. There is a Top Ten fastest times; fastest winning times for Overall and Masters; and age divisions will include 15 names. There will be no repeats; a person's fastest time will be recorded. However, if a runner moves up to a different age division, it's possible he or she could be listed in both. The fastest list will run from May 1, 2008 to April 30, 2009. If there are names misspelled or times wrong, please [e-mail](#) me for corrections.

Note: There are some races results that don't have ages listed, so some runners who are in overall, masters, younger and older age divisions might not be posted in their respective age division although they might have faster times than those who are listed. If that is the case, [please e-mail](#) and submit your age, race and time.

Note 2: Results from the Mav Run 5K (4-11) are not listed because the course apparently was short.

Legend is at the bottom. The numeral in the lists reflects the year. Thus, FBR8, means the race was in 2008 or FBR9 in 2009.

Updated: 04-29-09. If a name has been omitted or misspelled, please [e-mail](#) with the name, age and race.

Note: The D.O. Dash results aren't included because the course, according to runners including winner Keith Pierce, probably was short, maybe by as much as a tenth of a mile. Also, the Kwanzaafest Beat Obesity course reportedly was short, and those times will be discarded, though only one runner was affected.
